

PRESS RELEASE

**Fraud publicly detected in the IT management and the counting of votes
during the 2022 French presidential elections**

April 29, 2022. For immediate release.

Paris, France.

The law firm CAB ASSOCIES, represented by Mr. Carlo Alberto BRUSA, attorney at law, and Ms. Maud MARIAN, attorney at law, have been mandated by the "Anti-Fraud Collective" chaired by Mr. Morad EL HATTAB EL IBRAHIMI, by the Association "REACTION 19", and by thousands of citizens-voters in order to lodge an application at the French Constitutional Council (Conseil Constitutionnel) to challenge the legality of the second round of the Presidential election held on April 24, 2022, based in particular on the "fraud publicly detected in the IT management and the counting of votes".

Prior of any examination of the merits of the application, it is requested that Mr. Laurent Fabius, President of the Constitutional Council, withdraws from his position as President, given the conflict of interest between his institutional position and his capacity as father of Victor Fabius, partner of the "McKinsey Company", which is the subject of a criminal investigation opened by the National Financial Prosecutor's Office.

More than 5,000 people support, by written mandate transmitted to the lawyers, the application filed with the Constitutional Council, which attests to the strength and legitimacy of this legal action.

On an operational and administrative level, only 210 mandates have been transcribed in the application, which was filed today with the Constitutional Council and its content attached to this press release.

Mr. Carlo Alberto BRUSA
